Regulations for the individual districts appear in article V of this chapter. The Official Zoning Map shall be maintained in the Office of the Clerk of City Council.

(b) The Official Zoning Map, retained in the office of the Clerk Council, is hereby declared to be a part of this chapter and is to be maintained as an official public record open to the public. In the event of amendment of any district boundaries set forth on the Official Zoning Map, in the name of the district or other matters shown on the map, the change to the map shall be made by the Engineering Department and forwarded to the Clerk of the City Council, with a note as to the date of the amendment, to be incorporated into the Official Zoning Map. - (3) Where district boundaries run to, but do not extend into water areas, they shall be considered to run into such water areas in a straight line, continuing the prevailing direction of the boundary as it approaches the water, until they intersect other district boundaries or the corporate limits of the City. Boundaries which run through watercourses, lakes and other water areas shall be assumed to be located midway in such water areas, unless otherwise indicated.

- (4) Where district boundaries are indicated as following platted lot lines, the lot lines shall be construed to be the district boundaries.
- (5) Where district boundaries are indicated by specific dimensions, such specific dimensions shall control.
- (6) Where district boundaries divide platted lots or cross unsubdivided property and where no specific dimensions are indicated on the Official Zoning Map, the scale of the Official Zoning Map shall control.
- (7) Where the street or property layout or other physical features existing on the grounds are at variance with the Official Zoning Map or where other uncertainties exist as to interpretation of the Official Zoning Map, the Mayor shall interpret the map in such a manner as to carry out the intent and purpose of this chapter.

No yard, or lot, now existing, or hereafter created, shall be reduced in dimensions or area below the minimum requirements herein for the district in which located. No structure shall be erected on a lot heretofore or hereafter reduced below minimum dimensions or area required by law, nor shall such lot be offered for sale or sold, except to be used in such combination with adjacent lots as will produce conformity with the requirements of this chapter, provided, however, this requirement shall not apply to a lot which was of record (either by a plat or by a deed describing the lot by metes and bounds or otherwise) in the office of the Clerk of the Circuit Court, Pinellas County, Florida, on February 21, 1945 (the date of final passage of a former Zoning Ordinance containing similar provisions).

Within each district, regulations herein set forth shall be minimum regulations, and shall apply uniformly to each class or kind of building or land, and may specify: uses permitted, uses permissible (if reasonable requirements of a special nature are met to reduce or eliminate harmful incompatibility), off-street parking and loading requirements, and uses or characteristics of uses prohibited.
